Masai Mara National Reserve

Four Day Tour - Itinerary

Kenya's famous Masai Mara National Reserve; located southwest of Nairobi, offers best game viewing opportunities through the year thanks to its abundant resident wildlife including the Big Five (leopard, buffalo, Black Rhino, elephant, and lion).

Best-known for its exceptional game, featuring the Big Five and the famous annual migration, it is considered one of the seven wonders of the world, the great migration is an iconic safari must-see. Between July and October each year, over two million wildebeest, zebra, and other herbivores trek from the southern Serengeti to the lush green grasses of the Masai Mara.

Throughout the year we enjoy the splendour of Mara's resident wildlife, such as antelopes, giraffes, cheetahs, hyenas and many more. Bird life is also abundant with over 450 recorded bird species.

You may choose to explore the Reserve in a hot air balloon which includes a champagne breakfast and visit to a Masai village. Also available through local bookings are guided nature walks or horseback riding within one of the Mara adjoining conservancies.
